## **ACKNOWLEDGEMENT**

Foremost, I wish to count my blessings and thanked Allah s.w.t for providing me with the mental and physical strength as well as other positive attributes notably perseverance to complete this challenging research paper.

I take this opportunities to express my profound gratitude and deep regards to my research advisor PM Noorizah binti Ismail and PM Shukri bin Shamsuddin for their guidance, monitoring and constant encouragement throughout the course of this thesis. Their constructive comments and suggestions greatly assist in the successful completion of this project paper. The blessing, help and guidance given by their time to time shall carry me a long way in the journey of life on which I am about to embark.

I also take this opportunity to extend my appreciation to all those who have assisted directly or indirectly in the completion of this research paper. Sincere thanks to all my friends and office colleagues for their understanding, kindness and moral support during the testing time undertook to complete this assignment. Last but not least, my deepest gratitude to my beloved parents for their unwavering support, invaluable assistance and sincere blessings.

Thank you.

## **ABSTRACT**

**Purpose** - The study aims at examining how macroeconomic factors affect the housing price in Malaysia.

**Design/methodology/approach** – The paper employs the latest estimation macroeconomics factors that affect the housing price in Malaysia.

**Findings** – The sample data were derived from five variables such housing price index, population, gross domestic product, lending rate and consumer price index. The dependent variable is housing price index. The methods that will be used were multiple regressions and e-views. Thus, the independent variables are the population, gross domestic product, lending rate and consumer price index. It can be used in order to identify the housing price change in Malaysia.

Based on the theories, the result showed that there are positive and negative relationships towards the housing price.

**Keywords** – Macroeconomics, Factors, Malaysia, Housing Price

**Paper type** – Research paper
