

A VISIT BY UNIVERSITY OF QUEENSLAND'S REPRESENTATIVE

UiTM Perak Branch, in its never-ending effort to broaden the horizons for students, had scheduled a meeting with Dr. Paola Leardini, a representative from University of Queensland, Australia, upon her visit to UiTM Perak Branch earlier this February.

The aim of this visit was to consider any possible potential collaboration that could be made between UiTM Perak Branch and University of Queensland, concerning the architecture courses. In accordance, Rector of UiTM Perak, Assoc. Prof. Sr. Dr. Md Yusof Hamid presented the list of accreditations gained by UiTM Perak, to acknowledge the related programmes.

Dr. Paola also showed a great interest in other joint activities, including students exchange, summer camps, lecturers exchange and double-degree programmes. She even suggested several ways to collaborate in researches between these two universities.

After the discussion with UiTM Seri Iskandar's top management regarding future collaboration, Dr. Paola shared her research knowledge with the post-grad students and interested researchers at ILQaM Room. The talk focused on her research in sustainable and green technologies mainly in the built environment field. Being a founding member of Passive Institute House, New Zealand, and a visiting scientist at Passivhaus Institute Darmstadt Germany, it is undeniable that her expertise and knowledge are valuable to UiTM Perak Branch if the future collaboration is materialized.

“Students exchange, summer camps, lecturers exchange & double-degree programmes are among the suggested joining activities between the universities”
