

**MULTIFUNCTIONAL STORAGE  
WITH TABLE AND CHAIR**

**WAN MUHAMMAD HILMI BIN WAN IBRAHIM**

**Final Year Project Report Submitted In  
Partial Fulfillment of the Requirements For The  
Degree of Bachelor of Science (Hons.) Furniture Technology  
In The Faculty of Applied Sciences  
Universiti Teknologi MARA**

**JANUARY 2015**

## **ACKNOWLEDGEMENT**

Assalamualaikum w.b.t

First and foremost, I am thankful to Almighty Allah for His merciful, compassionate and blessings given to me. I owe a special dedicated thanks to my advisor, Madam Nor Hafizah binti Rosman, for her constant supports, valuable inputs, guidance and encouragement over the duration of my survey. She is so generous in lending me helping hands and thanks again for her kindness and guidance in completing this project successfully.

Million thanks also go to my Project Co-ordinator, Professor Madya Dr. Hj Wan Nazri bin Wan Abdul Rahman, for the ideas and his guidance at every phase of this study.

These thanks are also to extend our appreciation to those who are involved either directly or indirectly for completing this proposal. I believe, without their helps, I would not be able to complete this final year project.

## **ABSTRACT**

### **MULTIFUNCTIONAL STORAGE WITH TABLE AND CHAIR**

Nowadays, people seek for furniture that has many functions. Function, design, space, price and material used are important features that need to be considered by customers. Lack of space is the limitation for people who are living in small houses; hence, there is a need for multifunctional furniture. This study is conducted to overcome those problems by designing multifunctional storage with table and chair. The main concept is designing not only multipurpose furniture, but also can be sold in an economical price. In this study, the bookshelves can be switched to a coffee table and chair. Furthermore, modern and contemporary design was applied. Blockboard was used as the main material, as they have excellent properties, cheap and good appearance. A set of a questionnaires were distributed to hundreds of respondent which consists of student, lecturers and others. Then the data was analysed by using SPSS to acquire the result. Results show that the correspondent gives a positive feedback regarding on the material used, multifunction and suitable for limited space. Overall, this multifunctional storage with table and chair is suitable to commercialize in market.
