ACKNOWLEDGEMENT

Firstly, we would like to thank to Allah SWT because of His permission and giving of healthy condition during the period of accomplishing PAD 340 research project. With the spirit of esprit de corps and teamwork, we managed to handle this project without any difficulties.

Sincere appreciation and thank to all the parties who contribute the ideas and knowledge in order for us to complete this research. It is not easy for us to accomplish this project alone and without any guidance. Special thank to Sir Lt Col Saiful Anwar because of their roles to teach us about how to create a research and his motivation in order for us to complete this research. Special thank also to our supervisor Madam Noor Fadhleen Bt Mahmud who willingness to accept us and guiding to our research.

Special thank are also given to all our family and friends because of their moral support and their willing to share their knowledge to us.

CHAPTER 1

INTRODUCTION

1.1 Background of study

This research is been conducted by three part six students of Diploma in Public Administration under the Faculty of Administrative Science and Policy Studies. Under the supervision of our supervisor, Madam Noor Fadhleen Binti Mahmud, and our lecturer who teaches us this subject Sir Leftenan Colonel Saiful Anwar Bin MD Ali (PAD340), we are given the authorities to complete this research with full of commitment and quality.

This is the study of student's perception towards security management in UiTM Samarahan, Sarawak. Our focus issue is in students residential. The purpose of this study was to identify standards for effective security management of university in students residential. In this study, we want to know how secure the hostel is for the students. A residential college is a facility provided by the university management for student welfare. The student should know how to ensure their belonging is kept in save place. But, living in hostel is not guaranteed the students' property is saved.

Security management is a broad field of management related to asset management, physical security and human resource safety functions. It involves the identification of an organization's information assets and the development, documentation and implementation of policies, standards, procedures and guidelines. Every university must provide the security management to ensure the students is living in the safety zone.

CHAPTER 2

LITERTURE REVIEW

2.1 LITERATURE REVIEW

This chapter provides a review of the literature on the “How to overcome stealing cases in student residential” of the student in Universiti Teknologi Mara (UiTM) Kota Samarahan, Sarawak

2.1.1 Introduction

University Teknologi Mara (UiTM) is one of the higher learning institutions (IPTA) in Malaysia. It carries the rights of Bumiputera’s in Malaysia in advancement of academic qualifications such as Malay, Iban, Melanau, Kadazan, and others that are entirely many in term of races. UiTM have many branches in Malaysia such as Sarawak, Melaka, Terengganu, Johor and almost all part of states in Malaysia. Even though there were many competitions from others University in Malaysia, UiTM is still the chosen one because the only university that provided many course. UiTM is also the best university in Malaysia because has create many excellent student that now work for the country and government. To achieve that, they need to have a high knowledge and intellectual students, well prepared facilities, successful implementation of academic, curriculum, and management procedure and system, and a good attitude of students and staff behavior in order for a better and respected image.

In UiTM, every student welfare are being taking care by the management to ensure the students can be more comfortable when studies. The facilities that been provided by the UiTM
