

## PROMOTING AND SHARING KNOWLEDGE AMONG RESEARCHERS THROUGH USBET

Universiti Teknologi Mara (UiTM) Perak Branch once again hosted another undergraduate seminar after two successive years, aiming to inculcate interest in doing research among undergraduate students in the built environment and technology field.

The 3rd Undergraduate Seminar of Built Environment and Technology (3rd USBET) was held on May 15, 2018 by the Faculty of Architecture, Planning and Surveying (FSPU) and successfully led by the Project Coordinator, Dr Lilawati Ab Wahab. This year's USBET, in continuation of the previous USBET debuted in 2016, has seen an increase in participation for both oral and poster presentation, with 35 and 65 presenters respectively, amounting to an overall of 100 presenters from five local universities.

After the gradual number of student intakes for bachelor's degree programmes in UiTM Perak Branch with six offered by the FSPU, this seminar is seen as a perfect medium for the campus undergraduate students to present and share the research findings for their final year project.
