ABSTRACT

The Islamic banking system is banking or activities that conduct business in accordance with the principles permitted by Islam. The products and services of the Islamic banking system are not only aimed at Muslims but are also open to non - Muslims. Therefore, it is necessary to understand the extent to which the Islamic banking industry in Malaysia conducts activities in a manner that always follows the Islamic perspective. This is because, Islam is a religion that protects human welfare by prescribing the law of muamalat in daily life. By following Islamic syariah in every aspect especially in Islamic banking activities, the objectives of this study can be achieved. This can reduce issues in Islamic banking such as issues in *riba*, *gharar*, *maysir* and so on from continuing to occur. Besides, the method used in this study is a qualitative method. This method is carried out by conducting an online interview on WhatsApp. This interview method was conducted with an employee in the Islamic banking sector where she experienced in Islamic banking product strategist and expertise in syariah compliance. In this study many things will be discussed especially about the issues that occur in syariah business and how Islamic banking can control it in tandem to achieve the objective of this study which is to study the issues that occur in Islamic banking. The results show that Islamic banking is different from conventional banking where Islamic banking conducts activities in accordance with the maqasid syariah. In this study can find out the issues that occur in Islamic banking and how Islamic banking controls the issue very well. In conclusion, although there are many challenges in getting answers to some questions but with the clear knowledge and understanding conveyed by the interviewers has made this study able to achieve the desired objectives successfully. All questions asked about issues in sharia business have been answered.

ACKNOWLEDGEMENT

Firstly, I wish to thank God for giving me the opportunity to complete this final year project research as a Diploma in Muamalat student successfully. All this hard work would not have been possible without the assistance of my dear supervisors, Associate Professor Dr. Che Zuina Binti Ismail IMU304. Thank you for all huge support and her extremely guidance from the beginning to the end of the research.

Besides, I would like to thank you to the manager of the Islamic Banking, Puan Rahimah Binti Mansor because willing to give me a big cooperation to give the answered to achieve the objective of my project. I am really appreciating all her time spent to answer all my questions through online WhatsApp and at the same time trying to make improvement to myself. She already working in 6 branches and her hard work make me inspired. From the interview section she teaches me to be patient and be better in whatever I do.

Furthermore, I did like to take this opportunity to express my gratitude to everyone who has been a part of my research journey, especially my family members, who have always been patient with me and encouraged me to finish my research during this online distance learning because of the pandemic situation. Lastly, the big thank you to all my friends for always help making my days brighter so that I did to forget all my problems and not even give up.
