Talking Circle FSKM 1/2021

Prepared by Nurul Aityqah binti Yaacob

Talking circles can be used for brainstorming, problem solving, and decision making. The main goal of this program is to create a secure and non-judgmental environment where every participant can help discuss difficult or important issues. Consequently, on 5th March 2021, FSKM Kampus Kuala Pilah has organised a Talking Circle Series 1/2021 online via Google Meet.

The first speaker, Puan Norul Fadhilah binti Ismail, a senior lecturer at FSKM Kampus Kuala Pilah discussed an article titled: **“A Mathematical Formulation to Design a House Pop-Up Card Using Paper Folding Technique”**. The article was written and published in the Journal of Advanced Research in Dynamical and Control Systems in 2019 by Nur Lina Abdullah, Norul Fadhilah Ismail, Nik Nadhilah Mohd Yusof, Izreen Aqila Sezali, Nor Zahanim Mod Zubir and Siti Azureen Mad Safri.

The second speaker for this program is Dr. Nur Ida Aniza binti Rusli, also a senior lecturer at FSKM Kampus Kuala Pilah. She spoke about an interesting topic in Software Development titled: **“The Importance of Functional Size Measurement in Software Development Costing”**. It is common for software projects to produce more than the budgeted amount.

All of the FSKM lecturers who participated in this programme gave positive feedback and expressed an interest in participating again in the future.
