The first Hot & Tour Newsletter was published in 2017; and the previous editorial board was extremely pleased with the overwhelming support from the authors as well as the readers. Moreover, many interesting and exciting articles will be featuring in the current issue and in the 2nd issue by the end of the year.

In the meantime, the publication unit are planning to publish two issues yearly in full colours; besides allowing more authors to contribute their articles and fulfilling the general publication requirements.

## 2018 FHTM PUBLICATION STATISTIC

I am pleased to inform that according to publication PRISMA report for 2018 (Fig.1), journal publications are at 73% (indicating the publication priority), while proceedings are at 21%.

Subsequently, there is an improvement in SCOPUS indexed journals entries and hopefully this will continue to improve in 2019. Furthermore, a book was published in 2018 and this contributed to 3% of the total percentages of all types of publications.

However, there was no contributions for general publications. The editorial board is optimistic that there will be more publications happening in 2019 and in the years to come.

Let's publish & flourish.
