# RESEARCH, INDUSTRIAL LINKAGES & ALUMNI

## Objectives

- To promote world-class research.
- To administer, coordinate and provide service for research development, consultation and research publication.
- To provide assistance in exploring new subjects and identify niche area of interest.
- To disseminate information and provide ample training in research, consultation and publication of research.
- To ensure innovation, quality research, consultation and publication are maintained.
- To assist in research publication for high impact journals.

## Vision

To become the leading administrative centre for research, development, consultation and world-class research publication.

## Mision

To enrich the academia, creative ability and innovation through quality service.

Division of Research, Industrial Linkages and Alumni or known as PJI&A started as the Research Management Unit (RMU) or IRDC and was formerly known as Planning, Research and Development Centre which was established in April 1980. However in September 1987, IRDC was restructured with its heightened importance in research and consultation in UiTM and was divided into two units, Research and Consultancy Centre (RACC) and Planning and Evaluation Unit. This centre was then renamed to Research and Consultancy Bureau in 1994 and went through another name change to become Institute of Research, Development and Commercialisation (IRDC) on 15 July 2003.

With the mooting of the post of Deputy Vice Chancellor in March 2008 to take over the intellectual property and commercialisation portfolio, IRDC was given the responsibility to maximise innovation and increase the number of research which will later be published in high impact journals. Ensuing this, on 31 July 2008 IRDC was changed to Research Management Institute (RMI) to synchronise with UiTM's aspiration to become a Research University that will develop innovation activities and new research. It was only in 2011, that RMI became the Research, Industrial Linkages and Alumni Division (PJI&A), headed by its Deputy Rector, Associate Professor Dr. Roaimah Omar. Under her tutelage, Invention, Innovation and Design (IID) was born in 2009.

The different divisions or units in PJI&A are responsible to manage, monitor and conduct research in science and technology, management and social sciences, consultation, financial assistance for consultation, innovation, publication and Information for Research and Consultancy (INFORAC). PJI&A also conducts seminars, workshops and roadshows to encourage, motivate and train the academic and non-academic staffs in research and consultation, securing research grants and projects, to manage good financing and publish research in a responsible and ethical manner.

# RIID2013 OBJECTIVES

## General Objective

To display research, invention, and design from various institutions (IPTA/IPTS) that can be commercialised for global benefit

To culturalise research and innovation through the sharing of expertise and commercialised, creative and innovative ideas

To instill interest and encouragement to the public towards research, invention and innovation that poses as a medium for the nation's development.

## Specific Objective

To identify and promote new and inventive discoveries that are commercialised, creative, and innovative from various institutions (IPTA/IPTS) all over Malaysia.

To select discoveries and new invention to be contested in the national and international level.

To uphold the reputation and image of UiTM as a well-known pioneer in innovation and invention in the national and international level.

*rmualaium wbk and  
est greetings Salam 1Malaysia,*

foreword message by  
**CHIEF MINISTER  
MELAKA**

**YAB Datuk Seri Ir. Haji Idris Haron**

*Chief Minister Melaka  
December 2013*

nd foremost, I would like to congratulate Research, Industrial ges and Alumni Centre (PJIA), Universiti Teknologi MARA l) Melaka for yet another successful organisation of this rch, Invention, Innovation and Design Exhibition 2013 (RIID

In the era of globalisation, the Malaysian government is stepping efforts in developing the country and its people, be ucing a holistic socioeconomic development programme. our Prime Minister Datuk Seri Mohd Najib Tun Abdul Razak uced a massive transformation agenda in implementing the amme its approach and philosophy. The Prime Minister has also outlined five-key strategic thrusts under the 10th Malaysia Plan (10MP) to enable Malaysia to become a high-income and developed nation by 2020.

Therefore, the National Key Results Area (NKRA) and the Key Performance Index (KPI) were introduced towards achieving vision 2020. While moving towards achieving a developed country status, Malaysia needs to draw up a new approach which emphasises on quality human capital, innovation and creativity. The government in addition has to operate as competitive corporation.

I would like to congratulate UiTM Melaka for supporting the country's vision by hosting RIID2013 competition and exhibition. With its theme Innovation for Sustainable Growth, this event is a positive initiative to encourage professionals and academicians alike to enhance their knowledge and practical skills and these are parts of their contribution for the nation's building.

When research activities are conducted continuously, it is expected that more innovations will be generated. UiTM Melaka's initiative is highly commendable as it manages to attract 1t 340 products to be displayed and competed at this event. It is hoped that this event will serve as a catalyst in enhancing the roles of professionals in various industries.

*Assalamualaikum wbkt, Salam 1Malaysia  
and Salam UiTM Sentiasa Di Hatiku.,*

foreword by  
**RECTOR**

**Associate Professor Dr. Adnan bin Hashim**

*Rector  
Universiti Teknologi MARA Melaka  
December 2013*

I would like to welcome our honourable guests, professionals, and academicians from schools, colleges and universities to the 5th Research, Invention, Innovation and Design 2013 (RIID 2013) competition proudly organised by the Research, Industry Linkage and Alumni Division (PJI A) Centre Universiti Teknologi MARA (UiTM) Melaka.

In line with the government's aspiration to nurture and cultivate innovation, UiTM Melaka has taken the initiative to organise RIID 2013 Melaka Innovation Festival. One of the main objectives of the event is to raise the status of local universities globally. To achieve the status of a Research University (RU), one of the criteria is to emphasise on high impact innovation research which leads to invention of new business models, or innovative processes. This would result in an improved efficiency of the organisation and contributes towards better quality of life.

Since innovation is a vital catalyst to attain the status of developed nation in the year 2020, UiTM Melaka is heading the nation's call to attain aspiration through innovative programmes with staff and students. These creative and innovative abilities could be brought to greater heights through competitions and innovation exhibitions held annually. During this two-day event, a talk on innovation will also be held. Innovation is one of the key factors that could push the economy forward. In line with the strategic thrusts, the RIID 2013 competition will serve as a platform for researchers to expand their researches into innovations while becoming a venue for them to showcase their products, prototypes and new ideas.

This competition also serves as a platform for students, lecturer's administrative officers and the public to demonstrate their products or prototypes as well as sharing new ideas for commercial value. Therefore, PJI A decided the Optimizing Innovation for Global Commercialization as our theme for this year 5th Research, Invention, Innovation and Design 2013.

I am proud to announce that the number of participants in this event has increased to more than 300 participants compared to the previous year event. I would like to extend my sincere thanks and gratitude to the committee members who have persistently given their full commitment to this event.

I wish all the participants all the best in the competition.

## RETAIL STOCK VALUE (RSV) CALCULATOR

Saham adalah salah satu instrument pelaburan yang menguntungkan. Namun begitu, kesedaran dan pengetahuan terhadap teknik pelaburan saham diperangkat awam masih di tahap yang rendah. Kadangkala pelabur, khasnya pelabur runcit membeli saham tanpa sebarang justifikasi. Ini boleh menjadi masalah terutamanya jika saham yang dibeli tidak berbaloi dari segi nilai, dan akhirnya menyebabkan kerugian kepada pelabur. Persoalan yang sering timbul ialah adakah harga pasaran saham syarikat tertentu berbaloi untuk di beli sekarang dengan harapan boleh meraih keuntungan jualan pada masa hadapan. Berikutan itu, inovasi ini dilakukan untuk membantu pelabur mendapatkan anggaran nilai sesuatu saham sebelum melakukan pembelian. Inovasi ini adalah sebuah kalkulator saham hasil daripada penambahbaikan terhadap kalkulator saham sediada di pasaran. Anggaran nilai saham ditentukan secara 'fundamental' menggunakan kaedah penilaian saham 'Earnings Multiplier Model (EMM)'. Anggaran nilai yang diperolehi dibandingkan dengan harga pasaran semasa untuk menentukan nilai sebenar ('intrinsic value') pelaburannya sebelum membuat keputusan pembelian. Kalkulator mesra pengguna ini dibangunkan untuk kegunaan dan manfaat pelabur runcit. Secara umumnya, kalkulator yang menggunakan kaedah EMM ini belum diperkenalkan kepada pelabur runcit untuk kegunaan sendiri.

## RHA COUNTER

Norhayati Bt Manap; Mohd Asyraf B Taqiuddin; Mohd Firdaus Bin Mohd Asri; Zahrah Bt Abd Hamid

*Sekolah Menengah Tenik Kuala Lumpur; Sekolah Menengah Teknik Kuala Lumpur; Sekolah Menengah Teknik Kuala Lumpur*

Dalam suasana tekanan kerja serta persekitaran yang sibuk dan golongan yang berusia, ramai umat Islam mengalami penyakit OCD(Obsessive Compulsive Disorder) atau dikenali sebagai masalah was-was terutamanya ketika menunaikan solat. Objektif kami ,ialah menumpukan dalam aspek menentukan bilangan rakaat dalam solat. Selain itu,menurut Kamus Dewan was-was membawa erti perasaan sangsi, curiga dan khuatir. Dari istilah Bahasa Arab pula bererti sangkaan buruk yang merunsingkan hati atau fikiran serta godaan batin. Menurut Sayyid al-Bakri Rahimahullah,was-was timbul kerana lemahnya akal pemikiran dan kurangnya ilmu dalam bidang agama. (Hasyiah I'anahath-Thalibin: 1/214) Perasaan was-was dalam bilangan rakaat boleh dikurangkan jika adanya alat yang dapat membantu mengingatkan bilangan rakaat ketika solat. Oleh itu,kami dari SMT Kuala Lumpur telah merekacipta satu produk yang dinamakan "RHA-Counter" yang boleh membantu mengira bilangan rakaat ketika solat. Seterusnya, cara-cara penggunaannya mudah sahaja iaitu dengan meletakkan "RHA-Counter" di bawah sejadah. Kemudian,tekan suis"1" untuk menghidupkan "RHA Counter".
