background of RESEARCH, INDUSTRIAL LINKAGES & ALUMNI

Objectives

- To promote world-class research.
- To administer, coordinate and provide service for research development, consultation and research publication.
- To provide assistance in exploring new subjects and identify niche area of interest.
- To disseminate information and provide ample training in research, consultation and publication of research.
- To ensure innovation, quality research, consultation and publication are maintained.
- To assist in research publication for high impact journals.

Vision

To become the leading administrative centre for research, development, consultation and world-class research publication.

Mision

To enrich the academia, creative ability and innovation through quality service.

Division of Research, Industrial Linkages and Alumni or known as PJI&A started as the Research Management Unit (RMU) or IRDC and was formerly known as Planning, Research and Development Centre which was established in April 1980. However in September 1987, IRDC was restructured with its heightened importance in research and consultation in UiTM and was divided into two units, Research and Consultancy Centre (RACC) and Planning and Evaluation Unit. This centre was then renamed to Research and Consultancy Bureau in 1994 and went through another name change to become Institute of Research, Development and Commercialisation (IRDC) on 15 July 2003.

With the mooted of the post of Deputy Vice Chancellor in March 2008 to take over the intellectual property and commercialisation portfolio, IRDC was given the responsibility to maximise innovation and increase the number of research which will later be published in high impact journals. Ensuing this, on 31 July 2008 IRDC was changed to Research Management Institute (RMI) to synchronise with UiTM's aspiration to become a Research University that will develop innovation activities and new research. It was only in 2011, that RMI became the Research, Industrial Linkages and Alumni Division (PJI&A), headed by its Deputy Rector, Associate Professor Dr. Roaimah Omar. Under her tutelage, Invention, Innovation and Design (IID) was born in 2009.

The different divisions or units in PJI&A are responsible to manage, monitor and conduct research in science and technology, management and social sciences, consultation, financial assistance for consultation, innovation, publication and Information for Research and Consultancy (INFORAC). PJI&A also conducts seminars, workshops and roadshows to encourage, motivate and train the academic and non-academic staffs in research and consultation, securing research grants and projects, to manage good financing and publish research in a responsible and ethical manner.

RIID2013 OBJECTIVES

General Objective

To display research, invention, and design from various institutions (IPTA/IPTS) that can be commercialised for global benefit

To culturalise research and innovation through the sharing of expertise and commercialised, creative and innovative ideas

To instill interest and encouragement to the public towards research, invention and innovation that poses as a medium for the nation's development.

Specific Objective

To identify and promote new and inventive discoveries that are commercialised, creative, and innovative from various institutions (IPTA/IPTS) all over Malaysia.

To select discoveries and new invention to be contested in the national and international level.

To uphold the reputation and image of UiTM as a well-known pioneer in innovation and invention in the national and international level.

foreword message by

CHIEF MINISTER MELAKA

YAB Datuk Seri Ir. Haji Idris Haron

*Chief Minister Melaka
December 2013*

***Assalamualaikum wbk and
best greetings Salam 1Malaysia,***

And foremost, I would like to congratulate Research, Industrial
Parks and Alumni Centre (PIAC), Universiti Teknologi MARA
(UiTM) Melaka for yet another successful organisation of this
rich, Invention, Innovation and Design Exhibition 2013 (RIID

In the era of globalisation, the Malaysian government is stepping
up its efforts in developing the country and its people, be
ing by launching a holistic socioeconomic development programme.
Our Prime Minister Datuk Seri Mohd Najib Tun Abdul Razak
has introduced a massive transformation agenda in implementing the
programme with its approach and philosophy. The Prime Minister has
also outlined five-key strategic thrusts under the 10th Malaysia
Plan (10MP) to enable Malaysia to become a high-income and
developed nation by 2020.

Therefore, the National Key Results Area (NKRA) and the Key
Performance Index (KPI) were introduced towards achieving vision
2020. While moving towards achieving a developed country status,
Malaysia needs to draw up a new approach which emphasises on
quality human capital, innovation and creativity. The government in
addition has to operate as competitive corporation.

I would like to congratulate UiTM Melaka for supporting the
country's vision by hosting RIID2013 competition and exhibition.
With its theme Innovation for Sustainable Growth, this event is a
positive initiative to encourage professionals and academicians
alike to enhance their knowledge and practical skills and these are
parts of their contribution for the nation's building.

When research activities are conducted continuously, it is expected
that more innovations will be generated. UiTM Melaka's initiative
is highly commendable as it manages to attract 340 products to
be displayed and competed at this event. It is hoped that this event
will serve as a catalyst in enhancing the roles of professionals in
various industries.

***Assalamualaikum wbkt, Salam 1Malaysia
and Salam UiTM Sentiasa Di Hatiku.,***

I would like to welcome our honourable guests, professionals, and academicians from schools, colleges and universities to the 5th Research, Invention, Innovation and Design 2013 (RIID 2013) competition proudly organised by the Research, Industry Linkage and Alumni Division (PJI A) Centre Universiti Teknologi MARA (UiTM) Melaka.

In line with the government's aspiration to nurture and cultivate innovation, UiTM Melaka has taken the initiative to organise RIID 2013 Melaka Innovation Festival. One of the main objectives of the event is to raise the status of local universities globally. To achieve the status of a Research University (RU), one of the criteria is to emphasise on high impact innovation research which leads to invention of new business models, or innovative processes. This would result in an improved efficiency of the organisation and contributes towards better quality of life.

Since innovation is a vital catalyst to attain the status of developed nation in the year 2020, UiTM Melaka is heading the nation's call to attain aspiration through innovative programmes with staff and students. These creative and innovative abilities could be brought to greater heights through competitions and innovation exhibitions held annually. During this two-day event, a talk on innovation will also be held. Innovation is one of the key factors that could push the economy forward. In line with the strategic thrusts, the RIID 2013 competition will serve as a platform for researchers to expand their researches into innovations while becoming a venue for them to showcase their products, prototypes and new ideas.

This competition also serves as a platform for students, lecturer's administrative officers and the public to demonstrate their products or prototypes as well as sharing new ideas for commercial value. Therefore, PJI A decided the Optimizing Innovation for Global Commercialization as our theme for this year 5th Research, Invention, Innovation and Design 2013.

I am proud to announce that the number of participants in this event has increased to more than 300 participants compared to the previous year event. I would like to extend my sincere thanks and gratitude to the committee members who have persistently given their full commitment to this event.

I wish all the participants all the best in the competition.

Innovation Design School Uniform For Disable Children in Primary School

Lilinieta Binti Talib; Hairul Nizam Bin Mansor ; Rafidah binti Khalid; Muhammad Khalik bin Mustafa ; Shahrizat Fitri bin Mustapha

Universiti Teknologi MARA Perak

In Malaysia school uniform are compulsory for all students who attend government or public schools. The school uniform for government primary school is white color for top and navy blue color for bottom. For boys the top is white shirt and long navy blue trousers since the choice between long or short trousers for boys, in recent times it has become more common for Muslim boys to wear long trousers. For girls they wear Navy blue pinafore over white shirt or White baju kurung (a long tunic that covers the arms) over long navy blue skirt. This project innovation is to reveal new design in product development for disable children, we design the uniform according for functionality, and attractive, easy to use, affordable price and safety are all attributes that are expected in daily wear uniform. By using traditional school uniform for primary school, we construct few product lines will be design for the disable people. We construct the design , mainly the clothes opening are re-construct for the purpose of easy wear concepts for the disable and functionality of the uniform for easy to move but still look attractive and can be acceptable among the school community society. The main identification on designing the clothes involve with the opening, length and shape. The product enables the maximum functions for the disable user.

Penghasilan Abstrak Kertas Kerja Secara Automatik

Sulaiman Mahzan; Prof Madya Dr Roaimah Omar; Siti Fairuz Nurr Sadikan; Khalilah Ibrahim; Mohammad Bastyan Mahmud

Fakulti Sains Komputer dan Matematik, Fakulti Pengurusan Perniagaan, Fakulti Sains Politik dan Pengajian Polisi, Universiti Teknologi MARA Melaka

Penggubalan abstrak yang mengikut format merupakan salah satu kerja yang melecehkan apatah lagi terdapat sebilangan abstrak yang tidak mengikut format yang telah disediakan. Kekangan masa dan keperluan untuk memastikan kelancaran penerbitan keseluruhan abstrak untuk sesuatu aktiviti pembentangan kertas kerja berjalan dengan lancar menuntut penganjur untuk berkerja keras bagi mencapai standard yang telah ditetapkan. Secara lazimnya, abstrak yang diterima akan disemak dan diperbaiki formatnya sesuai dengan kehendak bagi sesuatu penerbitan. Kerja-kerja ini perlu dilakukan oleh pihak penganjur dengan perlu menyemak dan mengubahsuai format bagi setiap satu abstrak yang telah diterima. Lantaran itu, keperluan satu mekanisma baru yang lebih cepat dan efisien perlu dilakukan bagi meningkatkan kecekapan sesuatu penganjuran aktiviti. Aplikasi ini membolehkan penganjur menjimatkan masa pengeditan abstrak dan hanya melakukan kerja-kerja pembaikan yang sangat minimal. Memandangkan penganjuran aktiviti tersebut semakin berkembang dan bertambah membuatkan aplikasi ini menjadi pilihan alternatif dalam usaha penganjur untuk mendapatkan kualiti penganjuran yang lebih cekap dan tersusun terutamanya dalam aspek penghasilan abstrak yang standard.
