Genially is an online tool that offers an interactive presentation to create, animate or visualize the course materials using an available template such as presentations, video presentations, infographics, posters, quizzes, and gamification. It has been used in creating interactive educational resources (Enciso & Zelaya, 2021).

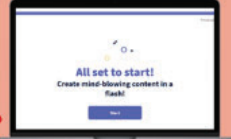

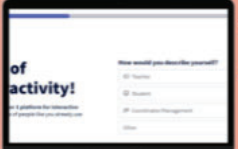

## Step by steps to create interactive infographics:

**1**

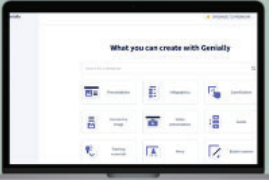

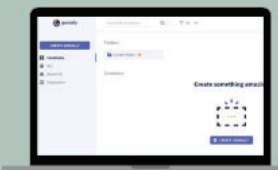

- Go to [app.genial.ly](https://app.genial.ly) and click the "SIGN UP" button for the first-time users.
- Create your free account by sign up using google or other platforms.

**2**

- Choose a type of account: Education or Corporate.
- Don't forget to describe yourself! And answer a few questions.
- Once you are done, then click the "start" button.

**3**

- Just click "Create Genially" to begin.
- Choose the type of presentation: Presentation, Infographic, Gamification, Interactive image, Video presentation, Guide, Training materials, Blank creation, or more that suit your content.

4

Choose an infographic template. There are a lot of templates available here.

This is the example of selected infographic template! Refer to the sidebar on the left, it can be a horizontal infographic, vertical infographic or diagram to be chosen.

5

- Click the "+" button to insert the interactive extra information in the form of tooltip, window, go to page, link, full screen or audio.
- You can also add animation and background audio to make it interactive.

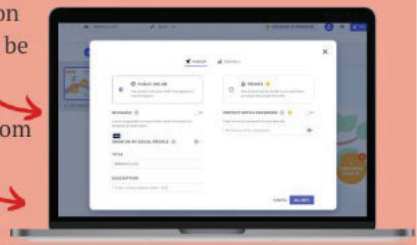

6

- Once it is done, click the "ALL SET" button and then choose if your presentation will be public or private (Premium feature).
- Click the "ALL SET" button at the bottom left. Now, it is ready to be used.

Choose to either present, share, or download (Premium feature) the presentation.
