ACKNOWLEDGEMENT

In the name of GOD, Most Merciful and Most Benevolent for giving us an opportunity to study for higher education and giving us strength and patience in completing this research report. Without the grace and help of GOD it would virtually impossible for us to have courage, endurance and spirit to do research and to complete this research report.

This report has been written with the attention of course fulfilment to the final year students, Bachelor of Administrative Science (Hons). Compilation of this report would not be possible without the vision, initiative, assistance, support and hard work of many people.

We would like to express our gratitude to our respected supervisor, Dg. Siti Noor Saufidah Ag. Mohd Saufi for her unceasing support, direction, ideas, help and patience throughout this thesis. Her constructive comments were always welcome. Not to be forgotten special thanks to all the staff at Tuaran District Council, Penampang District Council and Putatan District Council for their help in distributing and answering the questionnaires.

Our special appreciations to our beloved family for their encouragement, and moral support in making this project paper a reality. We would like to thank all our beloved friends and everyone who had directly or indirectly involved in conducting this thesis. Lastly, we wish to apologize for whatever shortcomings which may be found in this report.

ABSTRACT

This study was conducted to identify the perception of integrity among the employees of district council and the relationship between the perceptions of integrity with the factors that associate with it. The samples of 100 respondents from Tuaran District Council, Penampang District Council and Putatan District Council were selected randomly to answer the questionnaire in this research. The results of this study identified that majority of the employees having a high perception towards integrity. Apart from that, the findings also show that only employees working environment have a correlation with their perception towards integrity.
