ABSTRACT

As a final year student diploma course in Interior Design is required to prepare one final year project. Its compulsory requirements to go through into the next level. The selection of the project must be related to current issues to help student succeed. The knowledge and skills are required along the process of design works which include research, case study, interviewing, designing a proposal, submission by stages, create session, preparing art work, preparing presentation drawings, design development and final presentation. The client of this project is Boh Tea Centre t Sungei Palas. The intentions to do this project come when I go to the Cameron highland and look the different about this Boh tea centre with other coffee house or bistro. The reason to propose this project is to make a new lifestyle bistro with the nature environment and bring the environment of Cameron Highland into the city. Therefore, the project is propose to design a bistro which may interest and fulfil the aspect of design and practicality for user in the mean time give an inspiration to the proprietor of the bistro, and owner of the Boh Tea Plantation who will manage the bistro.. The research will involved research methodology such as interview, observation, internet and side references conducted on the products and designing the bistro will be gathered with others related information and details which work as guideline to prepare this project. For this propose project, site lot 47, seksyen 43, jalan Ampang, Kuala Lumpur was chosen after had done survey in few places and it seems that the site gives good impact and the surroundings suit the business purpose. The objective is to create a very well bistro with concept and style that related to this product and give the desire images that needed to enhance the interest of the proprietor.
