LOKA
/LəW.Ké/ /'LO:.Ke/

'Loka' is a word borrowed from Sanskrit लोक (loká) which means 'world'. Since olden days, the Malay language has derived and adopted many languages into its own and Sanskrit is believed to be the root of the language.

CONCEPT OF LOKA

Shadow puppet/ 'wayang kulit' has long existed in countries across the world. Each country possesses a background and styles of shadow puppets unique to themselves. Malaysia was one of said countries. However, our traditional shadow puppet is becoming extinct. Therefore, to bring it back, we modernised shadow puppet with bright colours and combine it with a paper-cut style.

My title of project is "save our ocean and marine life". This project I want to teach our community about saving our ocean and our marine life. This project is want our community take noted about plastic waste that already happened every year in world and about many marine life dead because of plastic waste. This will make a less of using plastic in our community daily life. This project also give awareness to our community.

As an illustration student in graphic design, I will choose installation art for my project to show people about plastic waste. This things also will give a lot of benefit such as we try to clean the waste in our ocean, beach, river area if we using that rubbish for the installation. So this will give the good impact to our community, and they can understand about plastic waste killing marine life.
