ACKNOWLEDGEMENT

Assalamualaikum,

First and foremost, praise be to Allah, the Most Merciful and Graceful. I am extremely grateful for the opportunity to complete my practical training for six months, beginning on August 23, 2021, and ending on January 7, 2022. I will not be able to finish this practical training without His guidance and permission.

Next, I would like to thank to my company, Orkid Bina Bersatu Sdn. Bhd. because accept and give an opportunity for me as one of practical student in this company. I am so grateful and does not know how to repay of their kindness especially the CEO of Orkid Bina Bersatu Sdn. Bhd., En. Faizal Al-Hafidz Bin Tahril who gives an opportunity to study and learn about construction under them. Not only that, I also would like to thank to the other staff in this company who are En. Firdaus, En. Shaiful, En. Azizul, En, Nazirul and the workers on sites because helping me for answer all of my questions that I want to know about constructions. Without them, I will not gain any knowledge and do not know anything about building constructions.

Not to be forgotten, I also want to thank to my lecturer who in charge for my practical training, Ts Dr Mohd Rofdzi bin Abdullah. He helps me a lot by giving an advice and motivation, understanding and also give a clear information which is makes me feel very easy to complete my report.

Lastly, a very special thanks to my family and my friends who practical in the same company which is. Nur Anis Nadhirah Binti Zulkefly and Aldrianna Binti Mohd Kamal who always give supports and motivate me all the time. They also always remind me to finish my report and sharing about what they know about building construction.

ABSTRACT

Tiles finishes is one of the important part in any building construction. This report will discuss about tiles finishes for residential building. There are many types of materials for tiles which is ceramic tiles, porcelain tiles, glass tiles and a few more. As we can see, most of the buildings in Malaysia using ceramic and porcelain tiles because it is cheaper than others but the quality still on top. In this report, the construction project has been chosen is a Single - Storey House at Kg. Melayu Subang, Selangor which is En. Hidzuan as the owner. In this report will be discussed the method of the tiles installation, the time taken for the tiles installation complete and the last one is the benefits and the disadvantages choosing ceramic and porcelain tiles for finishing.
