Date : 7/12/2021

ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah, the Most Merciful, the Most Graceful.

I would like to express my special thanks of gratitude to my internship company, B&A Resources for giving me an opportunity for being a employee in this company. Also, thank you for giving me new experiences and I come to know about so many new things.

I would also like to thank ALL the UiTM lecturers that have taught and nurtured me in becoming a better student and person. I would also like to extend my deepest appreciation to the lecturers who are directly involved during my training stint. To Ts Wan Nur Syazwani Binti Wan Mohammad as Supervising Lecturer, , Ts Muhammad Naim Bin Mahyuddin as Evaluation Lecturer , Miss Azizah binti Talkis and Ts Muhammad Naim Bin Mahyuddin as a practical training coordinator. I value the time, effort, encouragement and ideas that they have contributed towards the successful completion of my training, this report and the valuable knowledge that have been shared over the last few semesters.

Last but not least, my special thanks to my beloved parents for their sacrifices over the years.

Thank you so much.

ABSTRACT

The renovation design process is the process of coming up with a solution to a project brief and then putting together the instructions that will allow that solution to be built. The renovation design process is important because the design process must be planned and regulated in order for project budgets to be met, projects to be completed, and designs to be properly coordinated and communicated. However currently there is limited research conducted on proper renovation design process. The objective of this study is to determine the renovation design process are carried out. Other than that is to investigate the problem and solution during the renovation design process. The method of study for renovation design process is observe the building before designing, interview the client, do some research on internet and find some idea or inspiration from book, notes and journal. As a result, the renovation design process involve four main step such as however there are problem during the renovation design process for example time, idea, man power limitation and late decision. As conclusion, knowing the proper renovation design process is required for renovation contractors who willing to involve in future.
