## ACKNOWLEDGEMENT

Alhamdulillah, all praises to all mighty Allah S.W.T, because of His Almighty and His utmost blessings, I am able to finish this research within the time duration given. Firstly, my special appreciation goes to my beloved project supervisor, Madam Rogayah binti Abdul Majid for giving me a lot of moral support, knowledge, guidance and ideas throughout all these years in order to lift me up and complete this thesis.

My gratitude and thanks to my project coordinator, Dr Emma Nuraihan Mior Ibrahim and Madam Zan Azma Nasruddin as the lecturers for CSP600 and CSP650. An appreciation for her patience for teaching guidance and advices while coordinating me until the completion of this research. Not forgetting, a special thank to the examiner Dr Nor Hayati Abdul Hamid for giving comments, idea and correcting my report through this project.

Additionally, a million thanks, loves and appreciation to my beloved parents Zainol Abidin bin Mohd Hussain and [REDACTED] and to my siblings Mohd Zariff Affandi, Mohd Zuhairi Affandi and Zuhairah Atiqah who always be there for me and always give me support and encouragement in completing this thesis and prototype development.

Finally, special thanks to all my friends from class CS2406A for lending their hands to help, giving me support and ideas throughout the whole process of completing this research. A huge appreciation belongs to my beloved friend, especially Amirah Ibrahim, Siti Nur Shahirah Ismail, Nur 'Atiqah Sadli, Siti Sarah Halim and Nor Maziah Abdul Rahim for giving me ideas, spending their precious time in order to help me to solve problems regarding this project development, and also thank you very much to everybody who involved along my research study whether with intentional and unintentional.

## **ABSTRACT**

This research project is about developing a Nursery Plant and Fertilizer (NPF) Informational Web-Based System for the Nursery Shah Alam Seksyen 18. The main reason why the web-based platform is chosen because a web-based system can be accessed by both web and mobile devices. Currently, customer must make an appointment in order to get information about plant and fertilizer because in the Nursery does not have knowledgeable staff that can help owner give the information. The purpose of this research is to develop a Nursery Plant and Fertilizer (NPF) Informational Web-Based System. The methodology used in the development of this project is a Rapid Application Development (RAD) model approach and the reason this methodology is applied because systems can be developed faster and high quality through gathering the requirement, prototyping, and less formality review in other team communication. The project will bring benefit to both customer and the organization itself. The Customer can interact with the Owner using Chatroom and Forum function in the system and vice versa, and owner can share information with consists of three types of information which are text, image and video. Although the system gives benefits to the organization, improvements such as SMS notification to tell the owner when to approve the customer who just register to the system that will enable customer can get access as soon as possible.

Keywords: Chat Room, Forum, Web-based System, Information Web Based System, Rapid Application Development (RAD).

## TABLE OF CONTENTS

<b>CONTENTS</b>	<b>PAGE</b>
<b>SUPERVISOR APPROVAL</b>	ii
<b>STUDENT'S DECLARATION</b>	iii
<b>ACKNOWLEDGEMENT</b>	iv
<b>ABSTRACT</b>	v
<b>TABLE OF CONTENTS</b>	vi
<b>LIST OF FIGURES</b>	x
<b>LIST OF TABLES</b>	xiii
<b>CHAPTER ONE: INTRODUCTION</b>	
1.0 Introduction	1
1.1 Project Background	1
1.2 Problem Statement	4
1.3 Project Aim	5
1.4 Project Objectives	5
1.5 Project Scopes	5
1.6 Project Significances	6
<b>CHAPTER TWO: LITERATURE REVIEW</b>	
2.0 Introduction	7
2.1 Web Based System	7
2.1.1 Definition of Web Based System	7
2.1.2 The Architecture of Web Based System	8
2.1.3 Characteristic of Web Based System	9
2.1.4 Types of Web Based System	10
2.2 Definition of Informational Web Based System	10
2.2.1 Benefit of Informational Web Based System	11
2.2.2 Limitation of Informational Web Based System	11
2.3 Features to Be embedded in the Informational Web Based System	12

2.3.1	Online registration	12
2.3.2	Plant Finder	12
2.3.3	Chatroom	12
2.3.4	Forum	13
2.4	Reviews Tool to Be used in developing Informational Web Based System	14
2.4.1	XAMPP	14
2.4.2	MySQL Database	15
2.4.3	NetBeans IDE 8.0.2	17
2.4.4	Adobe Dreamweaver Csst	17
2.4.5	Hypertext Preprocessor (PHP)	18
2.4.6	HTML	19
2.4.7	Interface Design Tools	19
2.4.7.1	Adobe Photoshop	19
2.5	Technologies to Be used in Informational Web Based System	20
2.5.1	Security	20
2.5.1.1	Authentication and Authorization	20
2.5.1.2	Encryption	21
2.6	Reviews on Existing or Similar Web Based System	21
2.6.1	Kamal Nursery	21
2.6.2	Flower gardening made easy	23
2.6.3	SJH Nursery & Landscaping Sdn Bhd	26
2.6.4	MonRovia	28
2.6.5	Hicks Nurseries	30
2.6.6	UC IPM	32
2.7	Design requirements in developing Information Web Based System	34
2.7.1	Functional	34
2.7.2	Non Functional	35
2.8	Summary of Existing or Similar Web Based System	36
