ABSTRACT

The purpose of this study is to deepen understanding the implementation of green office practices among Malaysian workers. Through this study, it will help to determine who will benefit more from the result. Government sector that have been identified that will benefited from this study is Majlis Daerah Rompin, Pahang. Other than that, this study can give chance to the workers to taking their environmental responsibilities seriously at work. The implementation of green office practices was calculated and analyzed for each employee and used as a measure of green office implementation. There are 5 sections in instrument questionnaires. Section 1 is about demographics, Section 2 is about green office implementation, Section 3 is about environmental awareness, Section 4 is about environmental values and lifestyles, and Section 5 is about environmental attitudes. The data was collected by distributing survey questionnaires to 30 workers and the question were analyzed by using Statistical Package in the Social Sciences Software (SPSS) Version 20. The result showed that overall mean for green office implementation, environmental awareness, and environmental attitudes are high and for the environmental values and lifestyles are moderate. The recommendations for practices at Majlis Daerah Rompin, Pahang is they should organize campaign on “Green Environment”. They also should organize more forum and discussion about green environment, organize trip to visit other organization that practice green office, give rewards and recognition to their employees and encourage employees to practice 3Rs in office. While recommendations for future research is to increase the number of sample or respondents, expands the study to urban area, expand the study to private sector, and measure the green office practice based on other independent variables.

ACKNOWLEDGEMENT

In the name of Allah, the Compassionate, the Merciful, Praise be to Allah, Lord of the Universe, and Peace and Prayers be upon His Final Prophet and Messenger.

Assalamualaikum warahmatullahi wabarakatuh.

First and foremost, I would like to indicate my gratitude to Allah S.W.T., because finally I could be able to finish this project, Alhamdulillah. I also fond to take this opportunity to express my special appreciation and thank you to my supervisor, Madam Rozieana A Halid @ Khalid, for her guidance and unconditional support upon me to finish up this project. Nevertheless, to my beloved families and friends, thank you for being there for me through the hardest and easiest time and I are overwhelmed with the love and endless support you guys have shown. May God bless all of us! This warmth thanks and appreciations also goes to all my classmates (BM232 6A) who had supported me and those who are directly or indirectly involved in the process of completing this proposal and making it a success.

I hope this proposal has already achieved its aim and target. Besides, I pray to Almighty may all the aims and hard works will be appreciated and accepted.

Wallahu'alam.
