ACKNOWLEDGEMENT

Assalamualaikum w.b.t.

Long term effort, both large and small are needed from each person to give “life” to this project paper and we gratefully acknowledge their debt to those who contributed to this project paper entitled “A Study On The Awareness Level Of The teacher and staff at Sekolah Kebangsaan Taman Nirwana on using Hibah As A Tool To Reduce Estate Planning Risk.

We owe a great debt to the following individuals and organization, which has extended their support, time, motivation and guidance, either directly or indirectly. Without their help, this research may not be successfully completed. The gratitude goes to our advisor Miss Siti Nurul Aini Binti Mohd Rodzi for her advices, guidance, and continues support for our to complete my project paper. We appreciate her valuable comments and suggestions. Our special thanks to beloved family and friends for their concerns, advices, understandings, helps and support especially in financial aids and times in completing this study. This study involved many long hours of hard work, sleepless nights and personal sacrifices.

To those who are not mentioned here, appreciation is in our heart, although it is indirectly or directly. Without all of you this project paper will be unsuccessful. We have tried our best to produce a quality research. It is generally hoped that it will satisfy individual mentioned above. Lastly, we hope this project will meet the requirement and standard and will be used as a reference in the future. Best regards.

ABSTRACT

The topic of this research is “A Study on the Awareness of Hibah as a Tool to reduce Estate Planning risk among the teacher and staff at Sekolah Kebangsaan Taman Nirwana. Managing one’s assets are important and managing on how the assets should be delegate to heirs is not something trivial and simple. It is clearly proven in Malaysia through various situations such as dispute of assets among heirs or assets are frozen due to non-existent of any plan which ends up causing problem to the family members in Islam. Muslims are urged to have a proper planning of their property. Muslims are not only tied to the law of faraid in managing their assets as there are other techniques which are permissible to be exercise such as hibah.

Therefore this research aims on finding the level of awareness among teacher and staff at Sekolah Kebangsaan Taman Nirwana on hibah as a tool to reduce estate planning risk. Also to determine the greatest factor that influence awareness on hibah while at the same time to determine the relationship between knowledge, attitude and promotion on awareness towards hibah to reduce estate planning risk.

From the result it was found that the respondents possess high level of awareness towards hibah as tool to reduce estate planning risk. Also it shows that only knowledge and promotion have significant relationship on awareness while knowledge is the greatest factor influencing awareness on hibah.
