AUTHOR'S DECLARATION

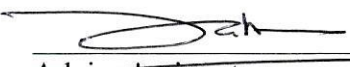

I hereby declare that the work in this research had be done and submit on the accurate due date. I acknowledge that I have been supplied with the Academic Rules and Regulations for my degree level, Universiti Teknologi MARA regulating the conduct of my study and research.

Name of Student : Abdul Rahman Bin Ahmad Sazili
Student I.D. No. : 2013621788
Program : Business Administration (Marketing)
Faculty : Business Management
Thesis : Personal Capabilities, Prior Knowledge and Social Factors
Towards Entrepreneurial Intention Among Engineering Students

Student's signature

Date: _____

Solemnly declared before,

Advisor's signature

Date: 4/7/16

Name : Dr. Jati Kesuma

Designation :

ACKNOWLEDGEMENTS

I thank God the Almighty for the knowledge, strength and good health throughout my research paper, till I able to complete my research.

I would like to thank several persons who have been of great help to my writing and preparing this research either to those people who are involved directly or indirectly in assisting to complete my research.

First and foremost, I would like to thank to my advisor, Dr. Jati Kasuma for his inspiring efforts in guiding my research. I wish to acknowledge his interest and encouragement in helping me with this research. I also acknowledge the limitless efforts of my parents for providing foundations. I also thank to all of my friends for they have been there for me in all circumstances.

Next, thank to all employees from Oopsstudio, Where I did my industrial training for their care and understanding toward me. Amirul Sailan and Alvin as the partner for the company teach me a lot and really understands my situation and kindly let me use office equipment in order for me to finish my research. In the same time, I did learn a lot from there.

Lastly, to my fellow classmates and coursemates in BBA program, especially Faralyana, Nur Atiqah, Izzat and all BBA program from batch Sept 2013, for always supporting me and helping finishing my research in pursuing BBA program much easier with each everyone's help. May god's blessing and peace will always be upon you all.

2.0 Chapter Summary	15

CHAPTER 1

INTRODUCTION

1.0 INTRODUCTION

In this chapter, background of the research, research problems, research objectives, scope of study, significant of study and definitions of terms are being highlighted to provide an overall overview on the research. This chapter will be the guideline on how to complete the study with appropriate procedures and context.

1.2 Background of Study

Entrepreneurship

Entrepreneurship has become of the most successful way for such country, either developed and developing, to strive their economic growth. (Matlay,2006). Entrepreneurship is a process of creation and of realizing values for entrepreneurs (Morris & Jones, 1999). It is also refers to a process of innovatively exploring and exploiting opportunities by turning resources into output, (Roxas,2008). Moreover, it leads the forces of innovation, increasing economic efficiencies, brings innovation to the market, creating jobs and also sustain the employment, (Glassman,2003).

CHAPTER 2

LITERATURE REVIEW

2.1 INTRODUCTION

In this chapter, we will discuss in detail on the study on entrepreneurial intention, personal capabilities, familial factor, creativity and innovation, Relationship between self-efficacy and Entrepreneurial intention, Relationship between Familial factor and Entrepreneurial intention and Moderating effect of innovation and creativity between Self-efficacy, Familial factor, and Entrepreneurial intention. In addition, this chapter also includes the appropriate literature and the conceptual framework underlying for the purpose of this study.

2.2 Literature Review

2.2.1 Entrepreneurial intention

Entrepreneurship has become one of the most successful ways for such country, either developed and developing, to strive their economic growth. Matlay (2006). Entrepreneurship is a process of creation and of realizing values for entrepreneurs (Morris & Jones, 1999). It also refers to a process of innovatively exploring and exploiting opportunities by turning resources into output, Roxas (2008). Moreover, it leads the forces of innovation, increasing economic efficiencies, brings innovation to the market, creating jobs and also sustain the employment, Glassman (2003).
