### **Abstract**

A standardized platform for recording student's assessment marks is paramount in today's education. Not only does it assure consistency, which reduces grading biases, but it also guarantees fairness in the evaluation process. The project aims to develop a standardized platform that streamlines the dissemination of assessment marks, which can support educators and the student's academic journey. By uploading and updating assessment scores promptly on the platform, the lecturers can identify areas for improvement, and the students are able to engage throughout the semester, thus fostering academic excellence fully. This project aims to give students early access to performance evaluations. The integration of technology being used in developing this platform enables real-time accessibility of assessment marks. This allows the students to view their marks directly, moving away from traditional paper-based mark distribution and enabling them to receive immediate and accurate feedback. This platform also focuses on encouraging educators to embrace technology and online platforms in displaying assessment marks, thus motivating the lecturers to adopt digital solutions for assessment management and promoting efficiency in the educational process. The proposed standardized platform can revolutionize the assessment process, benefiting both students and educators by fostering a dynamic and transparent learning environment. Through integrating technology and a commitment to transparency, this platform also seeks to empower learners, enable them to reach their full academic potential, and elevate the overall learning experience.

Evaluation and Assessment in Education

### ABSTRACT

A standardized platform for recording student's assessment marks holds paramount importance in today's education. Not only does it assure consistency, which reduces grading biases, but it also guarantees fairness in the evaluation process. The purpose of the project is to develop a standardized platform that streamlines the dissemination of assessments marks which can support the educators and the students' academic journey. By uploading and updating assessment scores promptly on the platform, the lecturers can identify areas for improvement and the students are able to fully engage throughout the semester, thus fostering academic excellence. This project aims to provide the students with early access to their performance evaluations. The integration of technology being used in developing this platform enables real-time accessibility of assessment marks. This allows the students to view their marks directly, moving away from traditional paper-based mark distribution and enable them to receive immediate and accurate feedback. This platform also focuses on encouraging the educators to embrace technology and online platform in displaying assessment marks, thus motivating the lecturers to adopt digital solutions for assessment management and promoting efficiency in the educational process. The proposed standardized platform holds the potential to revolutionize the assessment process which in return, benefiting both students and educators by fostering a dynamic and transparent learning environment. Through the integration of technology and a commitment to transparency, this platform also seeks to empower the learners, enable them to reach their full academic potential and elevating the overall learning experience.

### ISSUES/PROBLEMS

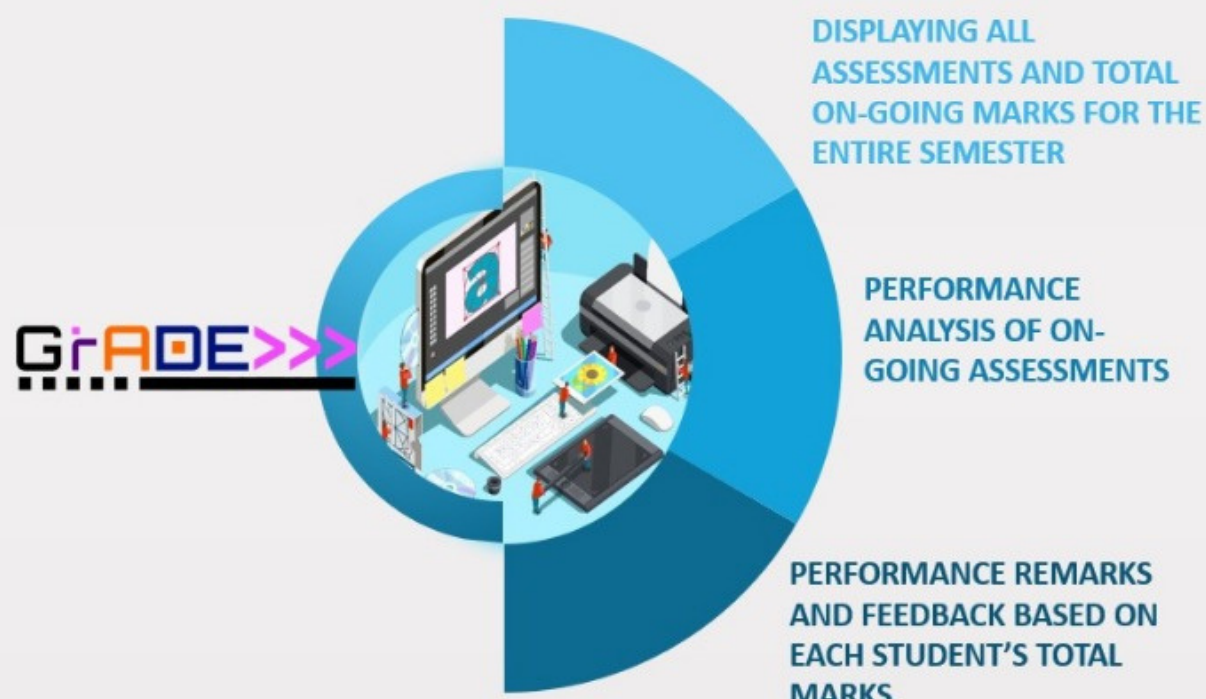

No standardize approach in informing/communicating the assessment results to the students.

The lecturers are not able to fully explain regarding the students' performance to them.

The lecturers often enter the marks/grades at the end of semester where most students unaware of their study performance of the semester.

Inability of the lecturers to utilize technology where some lecturers still record students' assessment marks manually.

Tarikh : 20 Januari 2023

Prof. Madya Dr. Nur Hisham Ibrahim  
Rektor  
Universiti Teknologi MARA  
Cawangan Perak

Tuan,

**PERMOHONAN KELULUSAN MEMUAT NAIK PENERBITAN UiTM CAWANGAN PERAK  
MELALUI REPOSITORI INSTITUSI UiTM (IR)**

Perkara di atas adalah dirujuk.

2. Adalah dimaklumkan bahawa pihak kami ingin memohon kelulusan tuan untuk mengimbas (*digitize*) dan memuat naik semua jenis penerbitan di bawah UiTM Cawangan Perak melalui Repositori Institusi UiTM, PTAR.

3. Tujuan permohonan ini adalah bagi membolehkan akses yang lebih meluas oleh pengguna perpustakaan terhadap semua maklumat yang terkandung di dalam penerbitan melalui laman Web PTAR UiTM Cawangan Perak.

Kelulusan daripada pihak tuan dalam perkara ini amat dihargai.

Sekian, terima kasih.

“BERKHIDMAT UNTUK NEGARA”

Saya yang menjalankan amanah,

**SITI BASRIYAH SHAIK BAHARUDIN**  
Timbalan Ketua Pustakawan
