ACKNOWLEDGEMENT

Alhamdulillah, all praises to Allah for the strengths and His blessing in completing this project paper which entitled The Determinants of Profitability: Evidence from Malaysian Property and Construction Companies.

Firstly, special appreciation goes to my advisor, Madam Suhaily Maizan Binti Abdul Manaf for her supervision and constant support. Her invaluable help of constructive comments and suggestions throughout the experimental and thesis works have contributed to the success of this research. Not forgotten, my appreciations to my second examiner, Madam Hapiza Binti Omar for her support and knowledge regarding this topic. Then, sincere thanks to all my current and former lecturers and also my friends for their kindness and moral support during my study and during the period to complete this project paper.

Last but not least, my deepest gratitude goes to my beloved parents for their endless love, prayers and encouragement. To those who indirectly contributed in this research, your kindness means a lot to me.

Thank you.

ABSTRACT

This research is study what are the factors of bankruptcy among youth in Malaysia. There are three independent variables are using in literature review which are financial management, unemployment and non-performing loan. This research also to study the relationship between three independent variables with dependent variables; factors of bankruptcy among youth in Malaysia. Researcher has used the secondary data as the research method which is by using books, journal, articles and others. At the chapter of finding and analysis, the result shows that significant or not significant between the independent variable with dependent variable.

The three independent of variable which are financial management, unemployment and non-performing loans shows that there are significant to dependent variable; factors of bankruptcy among youth in Malaysia. For recommendation, all the parties should take an action to reduce the percentage of this case in Malaysia and the hypothesis showed that all the data given are significant with dependent variable.
