| Course<br>Description                                                                                                                                                                                                                                                     | The Elementary Mandarin Language course is intended for students who have no<br>background in Mandarin or any character-based language. This is the second of a<br>two-level Mandarin Language programme designed specifically for UiTM Diploma<br>students. The students will be taught appropriate elementary level vocabulary and<br>grammar. The course will emphasize greatly on developing participants oral<br>communication skills in situational contexts through class activities such as role plays,<br>simulations and other relevant oral tasks. Students are expected to take part in all<br>language activities conducted in class to ensure success in attaining the elementary<br>level proficiency. In this course, students will be introduced to the Hanyu Pinyin<br>system. In addition, Chinese culture will also be introduced in this course. |  |  |  |  |
| Transferable Skills                                                                                                                                                                                                                                                       | At the end of the course, the student should be able to: 1. Communicate ideas at basic level 2 with the community at large; 2. Acquire basic listening skill at basic level 2; 3. Read and comprehend simple texts in Romanized Chinese basic level 2; 4. Write simple sentences, texts and dialogues in Romanized Chinese at basic level 2 individually and in a group; 5. Acquire knowledge of Chinese social, cultural and ethical elements related to topics at basic level 2; 6. Write and recognize some basic Chinese characters.                                                                                                                                                                                                                                                                                                                              |  |  |  |  |
