FINANCIAL INDICATORS IN DETERMINE THE PERFORMANCE OF MERGER AND ACQUISITION COMPANIES

ACKNOWLEDGEMENT

ALHAMDULILLAH, all praises to almighty Allah (SWT) the most merciful and the most benevolent for the bounty and blessing to us.

First and foremost, I am grateful to Allah (SWT) for everything He has granted. Thanks to Allah (SWT) for giving me the strength energy, skills, sacrifice, and acknowledge facing the challenge till end. It would be virtually impossible for me to have the courage, endurance, and spirit to spent time to complete this study without the grace and help of Allah (SWT). Without His help and us effort would be senseless.

Undeniably, the dissertation requirement is the most challenging stage in completing my BBA (HONS) Finance course. I would like to take these opportunities to express gratitude and appreciation to the following individuals who is their guidance, support and contribution in order to prepare this project paper completely. . This dissertation could not been completed without special thanks to all whom directly or indirectly contributed to the success of this project paper.

Here, I would like to express my deepest gratitude to my distinguished advisor, Prof. Dr Wan Mansor Wan Mahmood for his guidance, advice and patient reading of various drafts, provide comments and recommendations through discussions and helpful suggestion at all stages of this project paper. His

FINANCIAL INDICATORS IN DETERMINE THE PERFORMANCE OF MERGER AND ACQUISITION COMPANIES

ABSTRACT

This study is focusing on The Financial Indicators in Determine the Performance of Merger and Acquisition Companies which focusing in Malaysia. The researcher focuses on this topic because researcher wants to know the relationship of some financial indicators with the performance of the companies after doing mergers. Then, we want to identify which one of the determinants is the most significant to the companies' performance.

The paper will concentrated on six companies located in Malaysia which are ECM Libra Avenue Berhad, PPB Group Berhad, MMC Corporation Berhad, VTI Vintage Berhad, Yen Global Berhad, and CIMB Berhad.

All data will be obtained from secondary data which is from the financial performance that get from the annual reports of each company for the year 2002 until 2009.

This research was used Statistics or Data Analysis STATA. This software was used to compute and analyze the data that was gathered by the researcher during this research. From that, the researcher can prove either this research is success or not.

This research has been done by collecting the data from annual reports of each company that can get from the internet. These mergers and acquisitions
