## **ABSTRACT**

The purpose of this study was to investigate about the study on relationship between office automation acceptances towards employees' performance at TH Properties Sdn Bhd. The scope of this research was the office workers at TH Properties Sdn Bhd. The data of this study were gathered through the distribution of questionnaires and used of sampling for selected from the total population in selected units. In this study, the data collected were analyzed by using the Statistical Package for Social Science (SPSS) software version 20.0. The result identified that there was a high relationship between the office automation acceptance and employees' performance. Therefore, the researcher highly recommended on determining of the right aspects that can help in increasingly the employees' performance at TH Properties Sdn Bhd. Then, the supervisors need to apply the effective office automation that suited with the environment employees are working in.

## **ACKNOWLEDGEMENT**

In the name of Allah, the Most Beneficent and the Most Merciful Alhamdulillah, I am grateful and honored to express to Allah S.W.T for His blessing that I finally managed to complete this research successfully. This obviously has been a great experience for me. I believe this experience is very beneficial and would be help and handy should I were to undertake or carry out researches in the future.

I would like to express my sincere gratitude to my advisor En. Azmi Bin Salim for his continues support and supervision for the success of my research. I also would like to express my appreciation to all my lecturers in UiTM Pahang for taught me and special thanks to En. Zulkifli Bin Abdullah for taught us for Research Method subject in part 5. It is useful for us to complete our research. Last but not least, sincere thanks to all my family and friends for their supports and endless love.
