ABSTRACT

In today's competitive business environment, corporations can no longer afford to waste the potential of their workforce. There are important factors in the employee's workplace that influence significantly on their level of motivation and productivity. The main objective of the study is to understand the relationship between the employees' productivity and their physical work environment. The private sector corporations of Johor have been chosen as the population for the study. The results of the study show that office environment has a slightly impact on the employees' productivity.

ACKNOWLEDGEMENT

Assalammualaikum

First of all, I would like to praise Allah Subahana Wataala, my God, the Almighty, and the Benevolent for His Blessing and guidance for giving me courage in completing this study successfully.

Without the assistance and guidance from the advisor Miss Ilyani binti Azer with her comments and suggestion, I believe this study would not be accomplished. I would like to thank her for her patient, advised and guidance in helping me completing this study. I also would like to express my gratitude and special credit to individuals for their contributions in their time and effort in assisting me.

Next, special appreciation to Madam Hamnah binti Md Tahir, Senior Assistant Executive of Pro Corporate Management Services Sdn Bhd as my supervisor for conveying precious knowledge and responding to all my questions during the completing of my study.
