ABSTRACT

This study aims is to examine the attitude of workers at National Sports Council on how they use social networking technologies at their workplace. Social networking technologies is defined as the communication methods that is used the World Wide Web as a platform for creating the community. The sample of this study is 60 respondents consists of 5 departments at National Sports Council, which are Human Resources and Administration, Sports Facilities, Coaching, Athletes and Paralympic. However, there are only 50 respondents who answered to the questionnaires given. Based on the findings, I found that there a significant between attitude of workers towards social networking technologies between the factors of Perceived Usefulness, Perceived Ease of Use, and Perceived Enjoyment.

ACKNOWLEDMENT

Bismillahirrahmanirrahim ...

Alhamdulillah. First of all, thanks to Allah SWT for giving me the strength, courage, guidance and faith that this project would be successful. Without His Mercy, I may not be able to accomplish this project in order to fulfill the requirements needed for the Academic Project (OSM662) course.

Apart from that, I also would like to express my deepest gratitude and appreciation to individual who contributed valuable assistance and knowledge to complete this project which is my research advisor, Madam Norulhuda binti Tajuddin for all the valuable guidance and advices that she gives to motivate me contributed tremendously to my project.

On the other hand, I express my sincere thanks to all my friends, especially my classmates for their great support and knowledge sharing that helps me for completing this project. Their willingness to giving me some ideas and information helps me in assuring my project finish according to the plan.

In a nutshell, this project is also a dedication to my beloved parents for their encouragement, constructive suggestion and prays for the project completion, from the beginning until the end. Without those who helps, I may not be able to finish this project successfully.
