ACKNOWLEDGEMENT

Thanks to Almighty Allah for allowing me to accomplish this project paper successfully.

This project paper is prepared to fulfill the requirements of the BBA (Hons) Finance course offered by the School of Business and Management, MARA Institute of Technology, Shah Alam.

First and foremost, I am deeply indebted to my dissertation advisor, Pn. Mazila Md. Yusuf for giving of her valuable time and also who made detailed, correction, comments, suggestions and guidance in the preparation of this project paper. She is an excellent advisor.

I am also grateful to staffs of Kuala Lumpur Stock Exchange (KLSE) Library, PTAR II (Perpustakaan Tun Abdul Razak) ITM Shah Alam. My gratitude also goes to my parents who support and encourage me during my two years pursuing my degree.

Zaidi Azudin

ABSTRACT

This project paper is prepared as a fulfillment of the Bachelor in Business Administration (BBA) majoring in Finance. For this purpose, I have selected a topic of " A Study on The Performance of The Commercial Banks which listed on the Kuala Lumpur Stock Exchange (KLSE) by Using Financial Ratio Analysis ".

The purpose of this study is to enable the readers to understand the basic features and thinking behind the development of any models and how they are being applied in analysing current performance of companies, especially in detecting any symptoms which might lead to success or failure.

The ratio analysis is the best method in analysing the performance of the company's success and failure. Therefore, this project paper will provide a view of corporate performance based on the ratio analysis which is a vital sign of the company. Beside that, this study reveals the usefulness of the ratio analysis itself.
