ABSTRACT

The purpose of this study is to identify the effectiveness of training program in Pejabat Setiausaha Kerajaan Pahang. This study investigates the most use of training techniques either of information distribution technique, simulation technique or on-the-job training technique. The questionnaires had been distributed randomly to the employees in Pejabat Setiausaha Kerajaan Pahang who are Malaysian. The respondents for this study were 55 respondents, but only 48 respondents were selected to be used to find the findings based on Krejcie & Morgan table from a given population. After collected the questionnaires from the respondents, the data had been analyzed by using Statistical Packages for the Social Sciences (SPSS) version 20 to get the results. Based on the findings, most of respondents choose on-the-job training technique as the mostly training program practiced in Pejabat Setiausaha Kerajaan Pahang. The findings also show that the level of the effectiveness of training program is good. The researcher suggested that simulation training technique also should be used to train employees by using advance technology besides it can improve the employee's skills and knowledge.

ACKNOWLEDGMENT

Assalamualaikum,

First and foremost, I would like to praise to Allah Almighty for His blessing and willing that I have completed the proposal for this subject, Research Methods (ASM 601) titled as a study on The Effectiveness of Training Program Conducted By Pejabat Setiausaha Kerajaan Pahang Based on the Employees Perceptions.

First of all, I would like to give my thanks to my supervisor, Encik Mohd Azizul bin Sulaiman for the valuable guidance and advice. His willingness to motivate me contributed tremendously to this study. Without his support and commitment to guide me, this study will not be complete on time.

Besides that, I would like to take this opportunity to thank to the group members who work hard to complete the research. Not to forget, my families and friends who give a lot of support and motivation.

Without helps of the particular that mentioned above, I would face many difficulties in doing this.
