ABSTRACT

The purpose of this study is to examine the relationship between cause of stress and employee job satisfaction at Pejabat Daerah dan Tanah Temerloh. Besides, the objective of this study is to identify the relationship between work overload, interpersonal stressor, and task control toward employee job satisfaction. Apart from that, 80 questionnaires have been distributed to supporting staffs at Pejabat Daerah dan Tanah Temerloh to achieve the objective of this study. All the data collected are analyzed using SPSS program. The finding shows the relationship of independent variables and the most influence variable that effect the dependent variables. The results of the finding are significant and there are positive relationship between cause of stress and employee job satisfaction.

ACKNOWLEDGEMENT

Assalamualaikum,

Alhamdulillah thanks to Allah SWT, whom with His willing giving me the opportunity to complete this research which is entitle “The Relationship between Cause of Stress and Employee Job Satisfaction among Supporting Staffs”. This research is one of the requirements for student to complete the degree of Bachelor in Office System Management (Hons).

Firstly, I would like to express my deepest thanks to Madam Nor Farhana Binti Mohd Azmi and Madam Noor Suraya binti Mohd Mokthar which is my advisor for her valuable information, suggestion and guidance in preparation to complete this research report. I am also grateful because of her constructive comment about my research. A part from that, thank you to my parents, family and friends for their constant support.
