## ABSTRACT

The purpose of this study is to determine the relationship between job satisfaction and job motivation to the job performance among employee at Pejabat Pendidikan Daerah Rembau, Negeri Sembilan. There are two objectives of this study which is to investigate the relationship between job satisfaction and job performance among employees and to determine the relationship between job motivation and job performance among employees in government sector at Pejabat Pendidikan Daerah Rembau, Negeri Sembilan. The population of respondents for this study is 45 staff and the sample size is 40 respondents from Pejabat Pendidikan Daerah Rembau, Negeri Sembilan. The data was analyzed by using the SPSS version 20.0 and involves the correlation test. The finding show that the job satisfaction have relationship to the job performance while job motivation have no relationship to the job performance.

## ACKNOWLEDGEMENT

First and foremost, I would like to indicate my gratitude to Allah S.W.T., because of His will and blessing, finally I am able to finish this assignment for the subject of Research Method successfully, Alhamdulillah. I am thankful to my lecturer, Dr Mas Anom Binti Abd Rashid who has given me encourage, guidance and support me from the beginning until I finished this project. A big thank is also thank to my supervisor, Madam Maisarah binti Ishak, who has provided guidance to me. I had some difficulties in doing this task, but she taught me patiently until I knew what to do. She taught me until I understood what I was supposed to do in this project. Not forgotten, I would like to thanks to my family for providing everything that is related to this project work, their advice and blessing. I would like to thank to my friends who have supported and helped me. Finally, my project successfully finished. Thank you.

I hope that this assignment has already achieved its objectives and target. Last but not least, I pray to the Almighty may all the aims and handwork will be appreciated and accepted.
