ACKNOWLEDGEMENT

In the name of Allah SWT, the most gracious and the most merciful. All praise to Allah SWT for giving healthy and strong mental as well as the inspirations in order to completing this study.

I take this opportunity to express my gratitude to all those who had helped me in completing this research. It would not have been possible for me to complete this research without getting the supports and help from all the individuals around me.

Big appreciation goes to my advisor lecturer in UiTM Alor Gajah Campus, Madam Saida Farhanah Binti Sarkam for her admiration, guidance, and advice in making this assignment a success from the drafting of the title of the research, constructing the questionnaire until the final presentation on the conducted survey. Thank you to madam for giving your best in assisting me in every step of this study, giving your time during consultation and also your never ending support.

Apart from that, gratitude to the employees of Johor Port Authority their cooperation and time spend to answer my survey, especially my supervisor during my four month internship, Mr. Ismadi bin Ismail for giving me opportunity completing my internship in such a big organizations. Thank you for all the knowledge that has been thought to me. Without assistance and help from all of you, it is possible for me to complete this survey.

My extend gratitude goes to both my parents and family for never endlessly giving me moral support and supporting me throughout the ongoing of this research. Last but not least, thank you to my research mates under the same advisor which are Nurul Syafika and Nursyafinaz that always giving their hand every need it.

CHAPTER 4; FINDINGS

4.1.	Introductions	30
4.2.	Reliability Analysis	30 – 32
4.3.	Descriptive Analysis	32 – 36
4.4.	Correlation Analysis	36 – 38

ABSTRACT

Employee is a vital player in organization. It is important for organization to ensure the employee is satisfied and comfortable with their condition whether in term of facility or workplace environment. When employee satisfactory is fulfilled it gives benefit to the organization itself where they become effective and efficient with their duties and at the same time help the organization increase their productivity. The purpose of the study is to seek out the relationship of training and non-financial rewards towards employee satisfaction.

The organization chosen is Johor Port Authority where based in Pasir Gudang, Johor. The population of the organization is 144 and the targeted respondent are 103 that chosen accordance department regardless of gender and designation. This study provides relevant and highly potential reasons for the organization in ensuring the employee satisfaction while working in the organization.

This study explains two factors that chosen to seek the relationship with employee satisfaction. Those factors are training and non-financial rewards.
