ABSTRACT

This study focus on the Islamic services offered by Bank Islam Malaysia Berhad where it is taken as a model to determine the services of Islamic banking.

This project paper includes a description of theory of riba and interest, principles and services of Islamic banking. The main objective of this study is to give a real picture on the services and performance of BIMB.

This study will also explained about the Muslim and non Muslim think regarding Islamic banking in this country and why they choose BIMB and conventional banks. The survey had been done to support this project paper.

Lastly, through the survey, I conclude and recommend about the Islamic services and the performance of BIMB.

This is what I get and Allah Taala knows the best.
