INA412: BASIC DESIGN I

<b>Course Name (English)</b>	BASIC DESIGN I <b>APPROVED</b>
<b>Course Code</b>	INA412
<b>MQF Credit</b>	2
<b>Course Description</b>	The course focuses on the study of basic design within the context of two dimensional application. Basic two dimensional design elements such as point, line, shape, pattern and color is being explored. Basic design principles and terminologies such as proportion, scale, balance, rhythm, emphasis, unity and harmony is introduced and explored through two-dimensional and three-dimensional planar surface design exercise.
<b>Transferable Skills</b>	hands on skills knowledge skills
<b>Teaching Methodologies</b>	Lectures, Studio, Tutorial
<b>CLO</b>	CLO1 illustrate the comprehension of design vocabulary including the terminologies, elements and principles. CLO2 demonstrate in two-dimensional design manipulation using the fundamental principles. CLO3 compose a coherent and creative two-dimensional to three-dimensional composition that conforms to the design fundamentals and principles.
<b>Pre-Requisite Courses</b>	No course recommendations
