## ACKNOWLEDGMENTS

In the name of Allah, the Most Compassionate the Most Merciful. I'm very grateful to many individuals for the support in finishing this research. This research project will not have possibility to complete without the support in carrying out my study on the determinants of export in Malaysia. Therefore, I would like to take this opportunity to devote high appreciation to those who have given me fullest motivation and influence during my pursuit of the academic goal.

Firstly, I would like to express gratitude to my advisor Miss Amizatul Hawariah Binti Awang who was abundantly helpful and offer invaluable assistance, support and guidance through the learning process of this research project. In addition, I would like to thank our librarian in this campus which is Sir Mohd Jefary Bin Jantan who also shared the knowledge and guidance to us on how to use the data base to get the data and the information for our research project.

### ACKNOWLEDGMENTS

Furthermore, I would like to thank my family members for their continuous moral support, patience, encouragement, financial support and love throughout my thesis that made my study a success. Finally, I would like to grab this opportunity to express my appreciation to my friends who have given us full moral support and advices.

## **ABSTRACT**

This study analyses the determinants of export in Malaysia. Particularly, this study investigate the role of FDI, inflation rate, exchange rate and GDP promote to the export growth. This study consist secondary data which is the annually data from the period of 1985 – 2016. This research paper also using Ordinary Least Square (OLS) as a method to have a favourable results. The result of this study shows that FDI have a positive significant relationship to promote the export and inflation rate have significant with negative effect on exports.
