## **ABSTRACT**

The purpose of this study is to identify the problem in the movement of documents and find whether the implementation of electronic data interchange can solve the existence problem. Among the problems identified are , (i) slow movement of documentation , (ii) delay in the submission of documentation , (iii) delay in cargo clearance because of documentation , (iv) the movement of documentation at present involve a lot of manpower , and (v) present system involves a high cost.

The implementation of electronic data interchange by all the involved parties can solve all the above problems.

## ACKNOWLEDGEMENT

I would like to take this opportunity to express my special thanks to my adviser, Mr. Appa Rao Maradiah, Lecturer of ADBA(T), for his advise and guidance throughout the period of completion of this study.

I also would like to thank the management of Kelang Container Terminal Berhad, especially Mr. Maksah Ali, Mr. Yazit Rahmat and all the staff at training department and also all the staff at Planning Department, Control, System Department for the data, support and encouragement to complete this research.

# TABLE OF CONTENTS

	PAGE
ABSTRACT	
ACKNOWLEDGEMENT	
LIST OF FIGURES	
LIST OF ABBREVIATION	
CHAPTER 1:- INTRODUCTION	1
1.0 Background of study	1
1.1 Objectives of study	4
1.2 Scope and limitations	4
1.3 Problem statement	5
1.4 Literature review	6
1.5 Hypothesis	8
1.6 Methodology	9
CHAPTER 2 :- PRESENT SITUATION OF DOCUMENT MOVEMENT IN KELANG CONTAINER TERMINAL BERHAD	10
2.1 Procedure in import	10
2.2 Procedure in export	11
2.3 The movement of documentation in the process of import and export	13
2.3.1 Ship manifest	13
2.3.2 Container packing list	13
2.3.3 Status list	14
2.3.4 Bay plan	14
2.4 Problem at present	14
2.4.1 Slow movement of document	14
2.4.2 Too many document for the same information	15
2.4.3 The human error	15
2.4.4 The manpower	16
2.4.5 Doing the same job redundancy	16

	PAGE
CHAPTER 3:-	
THE ELECTRONIC DATA INTERCHANGE AND THE USER	17
3.0 The system in port	17
3.1 The present system in Kelang Container Terminal	18
3.1.1 Contrak	18
3.1.2 Radio Data Transmission	19
3.1.3 Ship and Yard Planning	20
3.1.4 Client access	20
3.1.5 Tele-client	21
3.2 A View point of port users	22
3.3 The view point of customs	24
3.4 Electronic Data Interchange (M) Sdn. Bhd	25
3.5 The advantages and benefit of the system	27
 CHAPTER 4:-	
THE IMPLEMENTATION OF ELECTRONIC DATA INTERCHANGE IN KELANG CONTAINER TERMINAL BERHAD.	28
4.1 The feasibility of the implementation	28
4.2 The effect of the system to the operation	30
4.2.1 Cost saving	30
4.2.2 Time saving	31
4.2.3 Reduction of manpower	31
4.2.4 Increase the rate of efficiency	32
4.3 The problem of the implementation	34
4.3.1 Cost of investment	34
4.3.2 The manpower	34
4.3.3 The backup system	35
4.4 EDI IN SINGAPORE	36
 CHAPTER 5:-	
SUMMARY AND CONCLUSION	38
 CHAPTER 6:-	
RECOMMENDATION	40
APPENDIX	iv
BIBLIOGRAPHY	v
