ACKNOWLEDGEMENT

“By the name of Allah S.W.T all Mighty Generous and Might Merciful”

Assalamu’alaikum Warahmatullahi Wabarakaatuh.

First and foremost, I praise to Allah for His blessing, which has given me the ability and strength to complete this research. Furthermore, I am very bless, grateful and thankful for the inspiration and His guidance for me to complete this research in time.

In addition, I would like to express my honest gratitude to my advisor Dr. Nur Melissa Binti Mohammad Faisal Wee for the continuous support of my research, for her patience, immense knowledge and motivation during the process. Her guidance has helped me a lot to complete my project paper. Moreover, despite her busy schedule, I am beyond thankful for the consultation that she has invested time for me in order to ensure my research study is required for academic purpose and beyond that. Besides that, I would like to thank to my second examiner Mrs Nor Azmawati Husain who also helped me in advising and show guidance to me in order to complete this project paper.

Other than that, I would like to express my very profound gratitude to my parents for their never ending supports and encouragement in many ways in doing my research study. Without their encouragement, motivation and support I would not be here to end my study and research. Then, also my friends who had contributed in helping me endlessly and their selflessness.

Not forgotten, I would like to thanks to youth for their cooperation and all respondents in Malaysia who had participated for spending their time in answering the questionnaire. Last but not least, thank you to everyone who has directly or indirectly assisting me in writing this research report. This achievement would not been possible without them. Thank you.

ABSTRACT

The title of this research is “Determinants of Financial Literacy among Youth in Malaysia”. This study consists of one dependent variable which is Financial Literacy and three independent variables which are financial education, financial socialization agents and money attitude. The results were collected from 132 respondents through a questionnaire. A survey consisted of 28 questions that used Likert Scale questions to establishing measureable values from the respondent. The data analysis intends to determine whether there are positive relationship between independent variables (Financial Education, Financial Socialization Agents and Money Attitude) with dependent variable (Financial Literacy). The data was being analysed using SPSS. Thus, this study has found that three independent variables which are Financial Education, Financial Socialization Agents and Money Attitude has positively related to dependent variable which is Financial Literacy.

Keywords: Youth, Financial Literacy, Financial Education, Financial Socialization Agents and Money Attitude.
