Project Title : Batik Motive On Occasional Table.  
Degree : Bachelor of Science ( Hons.) Date of Degree : October 2002

## **DESIGN CONCEPTS**

Batik is delicate art, which requires patience and skills. It is very popular in Malaysia to be worn for official functions as well as daily casual wear. The Malaysian batik is quite different in design and motive from another country. In making Batik, it begins with the basic design with motive and color before imprinting it. In other word, the motive and color show the tradition and religion of the country. Commonly, Malaysian batik adopts the motive of flora and fauna such as flower, bird and butterfly. This project was conducted with the aim to adopt the motive from Malaysian batik and transformed the motive into the occasional table. By this, we can promote and introduce the traditional concepts of Malaysia into furniture products.

## **ACKNOWLEDGEMENTS**

In the name of Allah, the Beneficent and Merciful who has given me the strength and patience to complete this project.

First and foremost, I would like to express my deepest gratitude and thanks to Prof. Madya Said Bin Ahmad as my advisor for his advise, guidance and encouragement in conducting me to complete this project.

My greatest appreciation goes to the following people En. Abdul Hamid Bin Saleh from FRIM, En. Abdul Wahab Harun and En. Jailani from Profitech Engineering Sdn. Bhd. for their cooperation of contributing ideas in order to complete this project.

Here, I would like to thank to my Course Tutor Prof. Madya Dr. Mansur Ahmad, all lecturers and En. Mohd. Nor Bin Jurimi for the support and cooperation. All knowledge will be useful for my future career. With opportunity, I would like to give my special thanks to my beloved mother, my siblings and my family for their love, support and advice.

Finally, my sincere gratitude is extended to all those friends, too numerous to mention by name, who have helped me direct or indirectly in completing this project. Needless to say any mistakes are my own responsibility. Thank you so much.
