ACKNOWLEDGEMENTS

Alhamdulillah, praise and thanks to Allah S.W.T because of His Almighty and His utmost blessings that give me the most precious opportunity to complete my product research successfully and for giving me the peace of mind in finishing this task properly.

I would like to express my deep and sincere gratitude to my Project Coordinator, Dr Siti Zalifah Binti Mahmud, for all guidance and supports.

Finally, I cannot express enough thanks to my supervisor, Madam Noorshashillawati Azura Binti Mohammad, who has given her time and energy to assist me in completing my research and providing me with a good guidelines, ideas, and knowledge throughout the whole process of completing my project research.

I am extremely thankful to my friend group, AS2476B, for providing me necessary suggestions and ideas during my product research.

ABSTRACT

WOODEN SHOE STORAGE WITH BENCH

Shoe storage is frequently encountered in furniture design with a simple design and have only one function. In this study, Wooden Shoe Storage with Bench has been designed by combining shoe storage with bench and umbrella storage. This product offer small space living solutions and creative storage options to the customers. A survey was conducted using google forms by distributing a set of questionnaires to 150 respondents. In this study, the product research were analyzed the important aspects such as materials, design, functionality, marketing and consumer satisfaction. From the survey, most of the respondents agreed and satisfied with the design and function of the Wooden Shoe Storage with Bench.
