ACKNOWLEDGEMENT

Alhamdulillah. First of all, thanks to Allah for all the Mighty Blessings in granting me the strength and ability to accomplish this thesis project.

In order to complete this project, I have accepted so much help from many people that were involved.

First of all, I would like to thank to my project supervisor, Prof. Madya Dr. Zainab Abu Bakar for her patience, guidance and much-needed assistance. My appreciation also goes to Puan Noor Elaiza Abdul Khalid for her complete handbook of thesis writing and her patience whenever we ask too many questions to her.

For my beloved parents and family, thank you for the supports and for being so understanding. The financial supports really did help me a lot in finishing this project.

Last but not least, a great accomplishment to all my friends that encourage me in completing this project.

8th Mac 2004

Sharifah Alia Bte Syed Ahmad Bakery

ABSTRACT

The existing of new technology makes life become easier. Learning process also has changed to make it easier and interesting. Computer as a tool in education field is become popular technique. This project used multimedia tools to teach people the Arabic language. This project provides an interactive environment for people to learn the Arabic language grammar. This program introduces to the Arabic nouns, verbs, notes, surah in al-Quran and its translation, also the Arabic grammar. It can make people understand the content of Al-Quran because it also provides the Al-Quran translation. This project will be continued by another student in order to complete the whole Al-Quran and its grammar.

CHAPTER 1

INTRODUCTION

1.0 Introduction

Multimedia can be used in many fields. It can be used in learning and documentation. It had been discovered that by using the multimedia approach, learning and documentation can be more effective. The use of color and some degree of animation make learning enjoyable to student.

Learning can be in many fields and many languages. There are many languages spoken throughout the world. One of the important languages is Arabic language where it is spoken by almost 200 million people in more than twenty-two countries. The Arabic language is used in the Al-Quran. Since it is the language of Al-Quran, the Holy book of Islam, Arabic is thought to be the first language to Muslims throughout the world. This project focuses on language learning.

1.1 Project Scope

Nowadays, computer technology is used in every field of life. Many surah of the Al-Quran had been translated into the Malay language and they can be found on the internet. The Al-Quran is also available in CD-Rom.
