ABSTRACT

This research was illustrated to the staff who works in Tabung Haji Hotel. The purpose of this study is to investigate the impacts of breakfast buffet food waste: study at Tabung Haji Hotel, Kuala Terengganu. Literature from the previous study can help in filling the gap between the research title and existing study. Most of the journals and articles are from reliable and trusted sources with sufficient information provided. Basic approaches were used to get the most accurate result. The population and sample size are determined by using tables and formula from the previous study. Pilot testing will be conducted before the distribution of the real question is made. A quantitative study with numbers of questionnaires will be distributed to the respondents based on simple random questions with clear words used. The result was analysed by frequency statistics in term of frequency study. The Likert scale is used that consists of scale from strongly agree to strongly disagree about questions provided. The most important impacts that had been analysed are environmental impact, societal impact and also economic impact. This findings also can be used by another researcher for their study. The period and timeline for this study conducted were within 4 to 6 months in order to complete all of the chapter given.

Keywords: Buffet service; Food waste; Environmental Impact; Social impact; Economic impact

ACKNOWLEDGEMENT

First and foremost, I would like to express my gratitude to one and only, Allah S.W.T for His blessings throughout the journey in completing this research. Next, I would like to thank the coordinator of research subject, Madam Jazira Binti Anuar and my beloved supervisor, Madam Noraida for keep on supporting me in completing this study. Without their precious help and guidance, this study could not be able to complete within the time given.

Then, I would love to express my gratitude to all the respondents, specifically the staffs of Tabung Haji Hotel, Kuala Terengganu that were willing to contribute their precious time and taking part in this research by answering the distributed questionnaire. Without their participation, I could not obtain the results for this research successfully and would not be able to complete the study.

Finally, I would like to show my gratitude to my family and friends that helps me in so many ways, show me their support and love throughout the journey regardless of the fatigue they faced. Without all the mentioned parties, I would not be able to complete this study in a timely manner and could be stuck during the journey in completing the research. Thank you so much.
